        <p className="dark:text-white text-lg">
          The Library is central and common to all the academic activities of
          the College. It provides a place to study, material for study and
          services to assist study. The college library has at present a good
          collection of more than 50,000 books which include textbooks,
          reference books, general books and non-book materials. The Library
          collection is well classified, catalogued in a Systematic way. The
          College Library is enriched with 30 Journals, 20 magazines and 12
          Daily Newspapers. SOUL2.0 an integrated library software package is
          installed for library automation.

    <li className="font-bold mt-2">Issue and Return</li>
    <p class="text-lg">
        This section is the hub of library activities where lending out of
        books to readers is facilitated. The circulation of books for home
        use is a major public service provided by the library. All the
        members of the library visit this section for getting books on loan
        for home use.
    </p>

    <li className="font-bold mt-2">Issue and Return</li>
    <p class="text-lg">
        Library provides book bank facility to needy and deserving students
        for the whole session. The issued Text books have to be returned
        after annual examination.
    </p>

    <li className="font-bold mt-2">Reference Services</li>
    <p class="text-lg">
        The function of libraries is three fold. Libraries acquire
        information, organize that information in a way it can be retrieved
        and disseminate the information the library has acquired. Reference
        service fulfils this last function. Library provides assistance in
        the use of library including location of material, use of computers
        to access information and the use of basic reference sources.
        Providing brief, factual answer to questions such as statistics,
        address etc that can be quickly located. Assistance in identifying
        library material needed to answer a question.
    </p>

```
