Index

- 1. Introduction
- 2. Project Profile
 - o Project Definition
 - Scope and Objective of Project
- 3. System Study and Problem Formulation
 - Existing System
 - Limitation of Existing System
 - Purposed System
 - o Advantages of Proposed System
 - Feasibility Study
 - Economic
 - Technical
 - Behavioral
- 4. Project plan
 - Team Structure
 - o Development Schedule
 - o Programming language and Development Tools
- 5. Structured Analysis and Structured Design
 - o DFDs
 - Entities
 - ER Diagrams
- 6. Detailed Design
 - Design Strategy
 - o Input & output description
 - o Module design
 - o Database design
 - Snapshots
- 7. Testing and implementation
 - System testing
 - Unit testing
 - Integration testing
 - Validation testing
 - System implementation
- 8. Coding
- 9. Project legacy
 - Conclusion
 - Current status
 - o Remaining areas of concern

10. References and Bibliography
