Conclusion of the Project College Website:

Our project is only a humble venture to satisfy the needs to manage their project work. Several user friendly coding have also adopted. This package shall prove to be a powerful package in satisfying all the requirements of the college. The objective of software planning is to provide a frame work that enables the manager to make reasonable estimates made within a limited time frame at the beginning of the software project and should be updated regularly as the project progresses.

At the end it is concluded that we have made efforts on following points:

- A description of the background and context of the project and it relation to work already done in the area.

- Made statement of the aims and objectives of the project.

- The description of Purpose, Scope, and Applicability.

- We define the problem on which we are working in the project.

- We describe the requirements, specifications of the system and the actions that can be done on these things.

- We included features and operations in detail, including screen layouts

- We included search engine optimization in the website so that it can be categorized and placed on top recommended searches ad results.

- We designed user interface and security issues related to system.

- Finally the system is implemented and tested according to test cases.
